ADDENDUM NO. 1

REQUEST FOR QUALIFICATIONS for CONSTRUCTION MANAGER AT RISK PRECONSTRUCTION PHASE SERVICES

CAREFREE WATER CONSOLIDATION PROJECT

The following question was received on the RFQ:

- Q. The RFQ requests the firm to submit current Construction Incident Rate and OSHA 300 Summary under Section V Paragraph A.2.d. Are these to be provided in an Appendix or are they to be considered as part of the SOQ 20 page limit count?

The following response to this question is issued as Addendum No. 1 to this RFQ:

- R. Section V Paragraph A.2.d. is modified to read as follows:

“Discuss and summarize your firm’s safety standing by presenting or referencing your most recent Construction Incident Rate (CIR) and OSHA 300A Summary. Actual CIR calculations and the OSHA 300A data sheet may be included as an appendix in the SOQ and may be referenced, as long as these sheets are separated from the main body of the SOQ. CIR data sheets and OSHA 300A sheets included in an appendix will not be counted toward the SOQ 20 page limit. Verbiage contained within the main body of the SOQ will count toward the 20 page limit.”
